

Welcome

The Sensory Room at Orchard Park offers a calm and inclusive environment tailored to individuals with sensory needs. In this room, individuals will find the sensory input they need to self-regulate and decompress. While this room was designed with the neurodiverse community in mind, all are welcome in this space!

The room capacity is 6 individuals. Patrons eighteen and under, or vulnerable people of any age, must be accompanied by a responsible party. Please wear shoes in the Sensory Room. We ask that strollers be kept outside of the room.

Reservations are available! Visit the front desk or mld.org/reserve-room to reserve the Sensory Room.

Welcome to

The

Sensory

Room

What can you find in the
Sensory Room?

Calming

Adjust the room's lighting and use weighted lap pads and vests to create a calming environment.

Sensory Stimulation

Access multiple options to provide sensory stimulation, including toys and sensory kits available for checkout.

Motor Skills Development

Patrons can explore via movement by utilizing wall and floor padding, liquid floor tiles, and more features.

Socialization

Patrons can engage in a shared space while following along with programs via a window and speaker.
